IT SERVICE DESK & SUPPORT OPERATIONS EXECUTIVE DASHBOARD

Domain: IT Service Desk & Support Operations (95.0%) | Profiling Conf: 90.3% | Records: 8,000 | Hash: 8cb4f04e

Filter: ALL_RECORDS(UNFILTERED) | Audit: VERIFIED_DETERMINISTIC_PARITY | Engine: v8-javascript

KEY PERFORMANCE INDICATORS (DETERMINISTIC METRIC AUDIT)

TOTAL TICKETS

8,000

`COUNTROWS`

Omitted: 0 rows

MEAN RESOLUTION DURATION (HRS, U

55.61

`AVERAGE(Resolution_Duration_Hours)`

Denom: 6,199 completed tickets (unresolved

REOPENED INCIDENTS

415

`SUM(Reopened Flag)`

Omitted: 0 rows

MEAN CSAT RATING

2.96

`AVERAGE(Customer Rating (1-5))`

Omitted: 3492 rows

EXECUTIVE MANAGEMENT DECISION BRIEF

- **Ingestion & Data Quality Profile:** Audited 8,000 source rows across 13 columns with 56.4% full record completeness. Detected 0 duplicate records in source data.
- **Total Tickets Benchmark:** Total Tickets stands at 8,000 calculated via COUNTROWS.
- **Cohort Concentration (Resolver Group):** Largest volume resides in 'Applications' with 1,656 (20.7% of cohort total). Lead cohort exceeds 'End User Support' by 1.1x.
- **Temporal Trajectory (Month):** Measured from 2025-01-01 (384) to 2026-09-01 (290) with -24.5% net trajectory. Peak volume recorded in 2026-05-01 (423).

DATASET INTEGRITY & STATISTICAL COVERAGE

Audited Records: 8,000 | Fully Populated: 4,508 (56.4%) | Duplicates: 0 | Missingness Exclusions Documented

VISUAL COHORT BREAKDOWNS & OPERATIONAL ACTION QUEUE

TICKET VOLUME BY RESOLVER GROUP (Resolver Group vs Tickets)

MONTHLY INCIDENT INTAKE TRAJECTORY (Month vs Tickets)

OPERATIONAL ACTION QUEUE (DETERMINISTIC SOURCE TRACEABILITY)

RANK	ENTITY ID	SRC ROW #	PRIORITY	STATUS	ASSIGNEE / SITE	TRIGGER REASON
#1	HD-000006	Row #6	Critical	Active	Applications / Del	Priority: P1 Critical
#2	HD-000010	Row #10	Critical	Active	End User Support /	Priority: P1 Critical
#3	HD-000033	Row #33	Critical	Active	Network / Delhi	Priority: P1 Critical
#4	HD-000061	Row #61	Critical	Active	Network / Hyderaba	Priority: P1 Critical
#5	HD-000077	Row #77	Critical	Active	Security / Mumbai	Priority: P1 Critical
#6	HD-000133	Row #133	Critical	Active	Security / Pune	Priority: P1 Critical
#7	HD-000146	Row #146	Critical	Active	Infrastructure / D	Priority: P1 Critical
#8	HD-000154	Row #154	Critical	Active	Network / Delhi	Priority: P1 Critical
#9	HD-000160	Row #160	Critical	Active	Security / Delhi	Priority: P1 Critical
#10	HD-000176	Row #176	Critical	Active	Infrastructure / P	Priority: P1 Critical

METHODOLOGY, AUDIT TRAIL & METRIC DICTIONARY

METHODOLOGICAL POLICIES & AGGREGATION AUDIT TRAIL

Policy #1: All analytical aggregations are computed locally in-browser using full-precision raw IEEE 754 float values.

Policy #2: No intermediate rounded values are ever re-aggregated across groups, metrics, or export layers.

Policy #3: Non-additive metrics (ratings, GPA, percentages, unit prices) are aggregated via weighted or arithmetic mean/median only; summation is strictly forbidden.

Policy #4: Semi-additive metrics (stock on hand, account balances) are point-in-time state indicators and must not be aggregated over time dimensions.

Policy #5: Missing, null, or empty string values are excluded on a per-metric basis without corrupting adjacent columns.

Policy #6: Zero AI hallucination guarantee: 100% deterministic code compilation with verified three-way engine parity.

CANONICAL METRIC DICTIONARY & ADDITIVITY TIERS

METRIC LABEL	FORMULA SPECIFICATION	ADDITIVITY	EXCLUSIONS	CANONICAL VALUE
Total Tickets	`COUNTROWS`	**ADDITIVE**	0 omitted	**8,000**
Mean Resolution Duration (hrs,	`AVERAGE(Resolution_Duration_Hours)`	**NON_ADDITIVE**	1801 omitted	**55.61**
Reopened Incidents	`SUM(Reopened Flag)`	**ADDITIVE**	0 omitted	**415**
Mean CSAT Rating	`AVERAGE(Customer Rating (1-5))`	**NON_ADDITIVE**	3492 omitted	**2.96**

INDEPENDENT MATHEMATICAL RECONCILIATION & REPRODUCIBILITY GUARANTEE

Source Hash: 8cb4f04e | Report Hash: 31a062a8 | Audit Timestamp: 2026-10-23T16:30:59.815Z

All metrics verified against independent Python float64 recalculation. Full raw precision preserved across all export targets.
